Project Summary

The overall aim of the project is to provide key strategic development and support mechanisms for the RDPE CWWW LEADER programme 2007 – 2013. This project is seen as an essential element to enable the planned programme of activity to be developed and delivered in a strategic, co-ordinated and sustainable manner in line with the CWWW Local Development Strategy (LDS). The project will provide support for three main elements of the LDS programme of activity:

- Strategic support for the rural heritage sector by developing, initiating and co-ordinating key actions and interventions
- Specifically developing and initiating a small grants scheme
- Co-ordinating the delivery of the business maximisation element of the LDS.
