Pocklington Canal

All Funding Sources & Project Total

Funding source: RDPE LEADER CWWW -	£45,000
British Waterways -	£17,500
Environment Agency -	£5,000
Pocklington Canal Amenity -	<u>£25,000</u>
Total	£90,000

Start Date: November 2009

End Date: 31.07.2010

Lead Organisation: Pocklington Canal Partnership

Location: Pocklington

Location of Project Manager / Registered Office: YO8 6QE

Project Summary

The aim of the project is to provide improved facilities for visitors to the Pocklington Canal. At present, there is no provision for boats to tie up at any of the locks or swingbridges, which is essential for crews to disembark safely. This project is to install short landing stages with suitable bollards at locations adjacent to locks and swingbridges.
